2. CORPORATE GOVERNANCE PRACTICES

2.1. Corporate Governance Rules

The board of NMDC is committed to implementing strong corporate governance practices to a standard derived from an amalgam of UAE guidelines and international best practices. Underpinning these legislative, regulatory and best practice requirements are NMDC's values and philosophies, which provide the framework against which we measure behavior and practices so as to assess the characteristics of good governance. Our values require that directors and employees act with integrity and conduct themselves to promote and maintain trust.

Sound corporate governance is therefore implicit in our values, culture, processes, functions and organizational structure. Structures are designed to ensure that our values remain embedded in all businesses and processes. We continually refine these structures and a written statement of values serves as our code of ethics. NMDC undertakes a frequent review of its strategic and operational environment, including communication with its stakeholders, in order to determine an appropriate balance, scope and sophistication of the corporate governance framework which is proportionate to NMDC's nature, size and complexity.

The corporate governance culture of NMDC is driven by:
